EDUCATION

Bachelor of Engineering - Computer Science and Engineering

Dr. Bhimrao Ambedkar University, Agra, India

December 2021 – May 2025

WORK EXPERIENCE

Ezkar Private Limited

Frontend Developer

Varanasi, India

September 2025 – February 2026

- Developed a scalable Office Management System using **React.js, Node.js, Express.js, and MongoDB** to streamline daily operations.
- Built secure **role-based dashboards** for Admin, Staff, and Supervisors with authentication and access control.
- Implemented **real-time task assignment, tracking, and status updates** to improve workflow efficiency.
- Designed responsive and modern UI using **Tailwind CSS and Shadcn UI**, enhancing user experience across devices.
- Integrated **WebSockets/Socket.IO** for live notifications and updates, boosting user interaction by **25%**.

LearnSmasher EduTech LLP

Java Programming Intern

Remote

May 2023 – June 2023

- Gained hands-on experience in Java programming, focusing on object-oriented design, modular coding, and clean syntax.
- Developed Java applications using classes, interfaces, inheritance, polymorphism, and exception handling.
- Solved problems using data structures and algorithms (arrays, linked lists, stacks, queues, trees).

TECHNICAL SKILLS

- Programming Languages:** Java, JavaScript
- Frontend:** React.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- Database:** MongoDB, MySQL
- Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Render

PROJECTS

EMS – Employee Management System

- Designed and developed a **full-stack Employee Management System** to manage employee records, roles, and organizational data.
- Built **secure authentication & authorization** using **JWT and company-based access control**.
- Developed **RESTful APIs** using **Node.js and Express.js** for employee CRUD operations.
- Managed **global state** using **Context API / React Hooks** for optimized data flow.
- Configured **CORS and cookie-based authentication** for secure client-server communication.
- Project Link** – [Frontend](#) | [Backend](#) | [Live](#)

Vintrix Edge – Company Portfolio & Services Website

- Designed and developed a **modern company portfolio website** for *Vintrix Edge* to showcase company services, team information, and business offerings.
- Built a responsive frontend using React.js and Tailwind CSS, ensuring compatibility across mobile, tablet, and desktop devices.
- Implemented **modular React component architecture** for maintainable and scalable UI development.
- Project Link** – [GitHub](#) | [Live](#)

ResumeMetric - ATS Resume Analyzer

- Designed and developed a production-ready ATS Resume Checker allowing users to upload resumes and match against job descriptions.
- Implemented secure file uploads using Multer and resume text extraction (PDF/DOCX parsing).
- Engineered keyword-matching and scoring algorithm to generate ATS compatibility score with structured feedback.
- Built responsive React + Tailwind UI with real-time result dashboard and score breakdown.
- Project Link** – [Frontend](#) | [Backend](#) | [Live](#)

ACHIEVEMENTS & CERTIFICATION

- Earned a **Git & GitHub** certification from **Physics Wallah**, gaining hands-on experience in version control.

Relevant coursework: Data Structures and Algorithms, Database Management System, Operating Systems, Computer Networks, Software Engineering.
